

MasterCard Multinational Corporate Card Program
**You're expected to maintain
a stable profit margin.
And in currencies that fluctuate daily.**

**Integrate spending data across
borders and currencies**

Keeping an eye on the bottom line isn't easy when you're doing business in thirty currencies that fluctuate daily. The MasterCard Multinational Corporate Program lets you seamlessly integrate international T&E payments into one easy-to-administer program. With everything connected to a single, powerful database you'll be able to consolidate,

organize, and manage your T&E spending, whether it's in reals, rubles, or rupees.

**The power of a global brand working
for you locally**

The MasterCard Multinational Corporate Program gives you a single point of contact backed by a superior, global network. It streamlines implementation and administration of expenses through a single lead financial institution. With real-time access to a single

YOU'RE SUPPOSED TO BE THERE EVERY TIME SOMEONE SPENDS A COMPANY'S CENT (OR CENTESI, RUPEE, BAHT OR DINAR).

repository of enhanced data on global transaction information, you'll be able to:

- Receive service in native languages and currencies from local banks.
- Integrate information easily by receiving data in consistent formats.
- Simplify accounting in local currency.
- Get clearer, more useful spending data through reporting tools such as MasterCard Smart Data™ Online.

- Achieve more responsive tracking through real-time information.
- Realize program consistency through minimum standards requirements.

You're always in control with up-to-date, accurate data from around the world

The MasterCard Multinational Corporate Program is a unique, customizable, powerful program that lets you control and monitor card usage. By providing a clear view of all spending, it helps you negotiate better deals with vendors. And it makes it easy to enforce your company's spending policy.

With all your T&E spending data stored in a single repository, you'll be able to:

- Enjoy better access to transaction data in local offices.
- Reduce exchange fees by settling transactions in local currencies.
- Protect against misuse with comprehensive coverage.
- Support employees with on-the-road benefits such as MasterCard Global Service, Travel Assistance, and more.

Programs to suit all facets of your business

Gain new efficiencies and controls with MasterCard Corporate Payment Solutions.

MasterCard Corporate Card – Make it easy for employees to get the services, travel, lodging, and other items they need with unrivaled global acceptance.

MasterCard Corporate Purchasing Card – Streamline procedures, create faster approvals, and consolidate internal and external transactions. Detailed reporting can also help you negotiate better vendor pricing.

MasterCard Corporate MultiCard – Combine any of the three payment programs, including Travel & Entertainment, Purchasing, and Fleet, into a single card program that's flexible, simple, and easy to manage.

MasterCard Corporate Fleet Card – Enjoy unsurpassed acceptance at fuel and maintenance locators. Monitor and control fleet expenses. Capture and manage detailed spending data.

In addition to these customizable card programs, we offer a range of enhancements, from powerful reporting tools to cutting-edge, proven e-commerce applications.

Tools to make spending more efficient around the world

MasterCard Smart Data™ OnLine – Monitor and control employee spending and track expenses. Available in 13 languages, this web-based reporting application helps your company seamlessly organize, consolidate, analyze, and manage financial data from cards, cash transactions, and other MasterCard card programs. Retrieve purchasing information daily, weekly, or monthly.

MasterCard ExpensSys™ – Make business travel simpler and more efficient. Work with your choice of our experienced expense management partners to generate autopopulated electronic expense reports. This seamless electronic process lets you capture data more effectively between the card transaction and the expense report, which also reduces the chances for data manipulation and errors.

MasterCard e-P3™ – Eliminate paper from your payable process. Fully automate the financial and information value chain by integrating MasterCard settlement options into Electronic Invoice Payment and Presentation (EIPP) platforms to provide paperless, end-to-end electronic commerce.

MasterCard SmartLink™ – Automate labor-draining tasks and optimize your Enterprise Resource Planning (ERP) system. Data generated anywhere in the world is automatically downloaded into your ERP system in secure data formats. You no longer need to wait for periodic statements to track expense details.
