

Accepting MasterCard Electronic™ Cards

Six simple steps to complete a MasterCard Electronic™ transaction.

1 The customer presents his/her MasterCard Electronic Card.

2 Check for the **MasterCard Electronic logo, unembossed name and card number, and any local use restriction.**

3 Swipe the card as you would swipe any other MasterCard card.

4 Upon approval, a sales slip is generated which the cardholder must sign.

5 Compare the signature on the sales slip with that on the card.

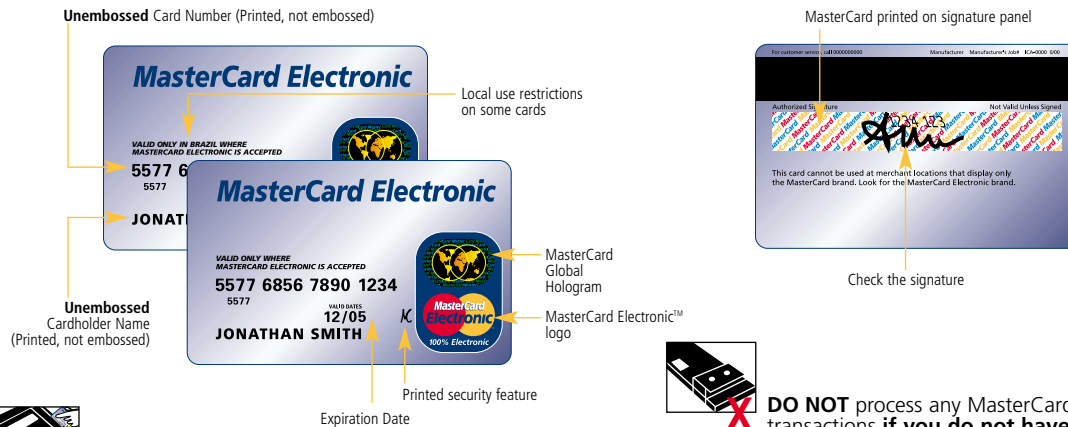

6 Hand over the merchandise, sales slip and card. The transaction is now complete!

Accepting MasterCard Electronic™ Cards

Whenever you accept a MasterCard Electronic™ card, check the following:

✓ The MasterCard Electronic card has been specifically designed for acceptance at **electronic terminals only; it cannot be accepted with manual imprinters.**

- ✓ **ALWAYS SWIPE** the MasterCard Electronic card **ON YOUR ELECTRONIC TERMINAL.**
- ✓ Display the decal (sticker) provided to you, showing both the MasterCard® and MasterCard Electronic brand marks, to inform cardholders that MasterCard Electronic cards are also accepted at your establishment.

✗ **DO NOT** process any MasterCard Electronic transactions **if you do not have an electronic terminal or if your electronic terminal is out of order** for any reason. Handwritten sales slips are not permitted.

✗ **DO NOT** use the keypad to enter the card number.

✗ **DO NOT** process any MasterCard Electronic transactions except when the cardholder is physically present at your location.

✗ **DO NOT** accept a MasterCard Electronic card that indicates it is valid only in a country different from where your establishment is located.
