

## Tap on Phone

A cost-effective, low maintenance solution to capture contactless payments

### Support your small business and boost your revenue potential.

Consumers prefer to pay electronically and increasingly favor contactless payment. Yet more than 65M million micro and small businesses worldwide are cash-only.<sup>1</sup>

With Tap on Phone, you can offer a cost-effective, low maintenance contactless payment acceptance solution right from the eligible NFC-enabled device you already own.

- ✓ **No terminal required**  
Runs via mobile application on any eligible NFC-enabled device.
- ✓ **Contactless Acceptance**  
Accepts payments from contactless-enabled cards, devices and mobile wallets.
- ✓ **Quick and Easy Onboarding**  
Simple merchant onboarding to go live quickly.

With Tap on Phone, you can unlock revenue opportunities from a flexible payment acceptance solution that enables a variety of use cases.

**Support payment on delivery** without the need for cash.

**Reduce checkout friction** by bringing the checkout to the customer in line.

**Empower on-the-go acceptance** with an agile payment solution.

**Facilitate events** including, charity fundraisers, concerts, and sports events.

**Get access to more digital tools** without the need or cost of traditional terminals.
