# SALES PROCESS BASICS FOR SMALL BUSINESS

## **SIMPLE DEFINITION:**

a structured, repeatable system that guides a sales team through each step of converting a lead into a customer.

## **5 SIMPLE STAGES:**

**01**

### **ATTRACT LEADS**

Get as much attention as possible!

**02**

### **QUALIFY LEADS**

Does the attention match your target market?

**03**

### **NURTURE & FOLLOW UP**

Court the qualified.

**04**

### **CLOSE THE SALE**

Ask for the money. Don't be scared.

**05**

### **RETAIN & UPSELL**

It's cheaper to keep 'em.

# 05 AI IN IDENTIFYING HIGH-POTENTIAL LEADS

AI Helps You Spot the Right People, Faster

## HOW AI HELPS:

AI can **analyze data** (engagement, website visits, buying behavior) to predict buyer interest

Saves time by helping you **focus on warm leads**

AI **finds patterns** you can't see manually

# 05 AI IN IDENTIFYING HIGH-POTENTIAL LEADS

Smarter Lead Targeting

## BEST PRACTICES:

**Start with clean data:**  
Your CRM, website visitors, past customer profiles

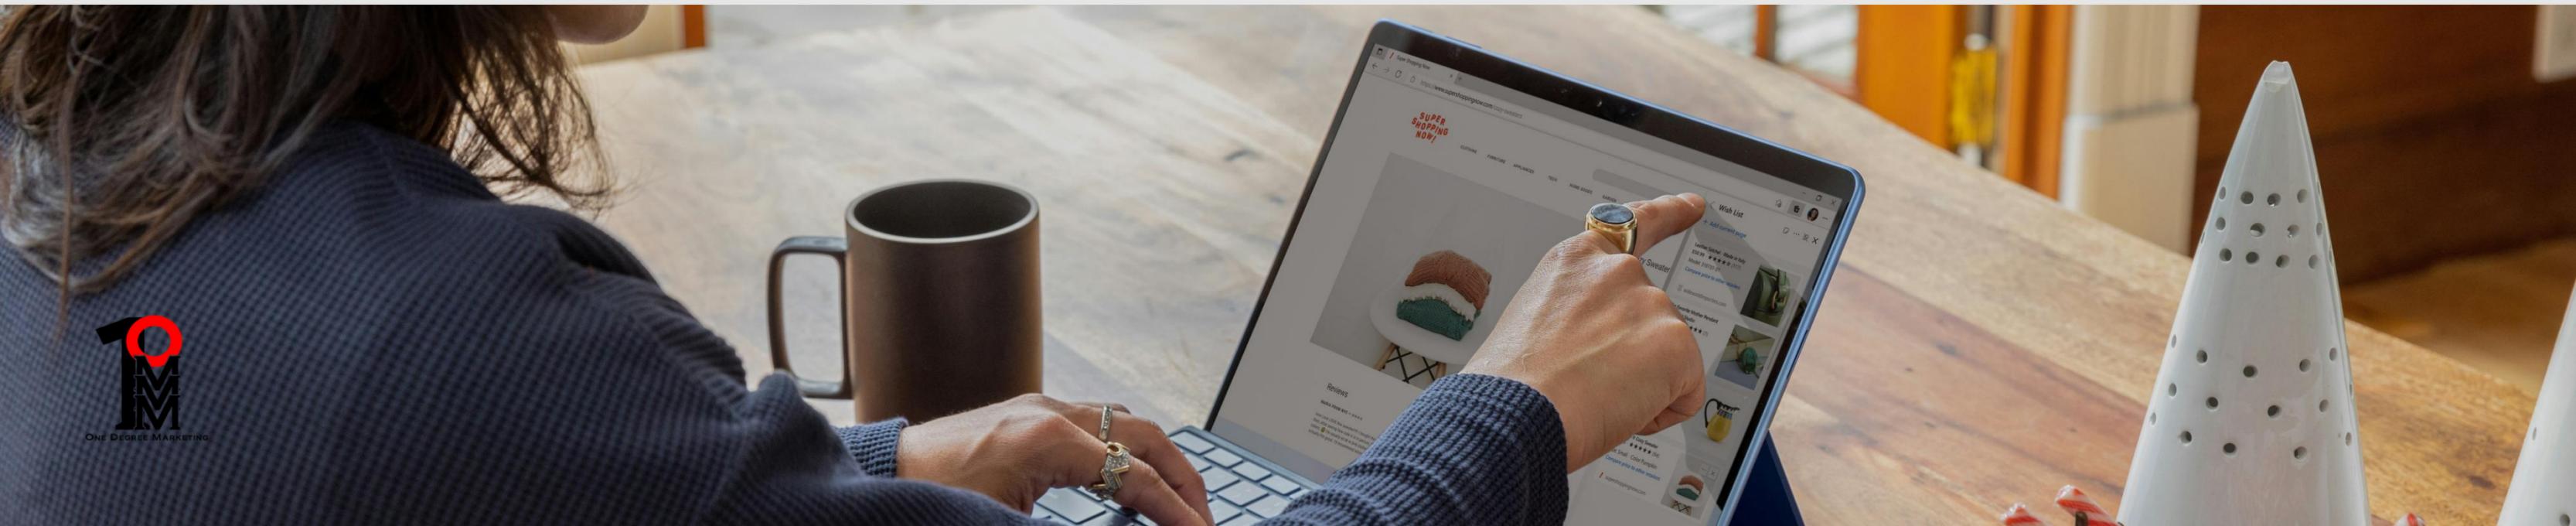

**Combine** human insight + AI suggestions

Focus on leads with signs of **readiness** (downloads, clicks, page visits)

### Pro Tip:

*Don't rely solely on AI—validate before outreach*

# 06 AUTOMATING FOLLOW- UP WITHOUT LOSING THE HUMAN TOUCH

Why Follow-Up Is Where Deals Are Won (or Lost)

## HOW AI HELPS:

AI helps you send timely messages without manual tracking

Predicts the best time to follow up

Writes initial drafts that you can personalize

# 06 AUTOMATING FOLLOW-UP WITHOUT LOSING THE HUMAN TOUCH

Smart Automation Doesn't Feel Robotic

## BEST PRACTICES:

Use workflows that match customer journey stages

Email sequence based on real life

Keep tone warm and helpful

Use AI to draft follow-ups

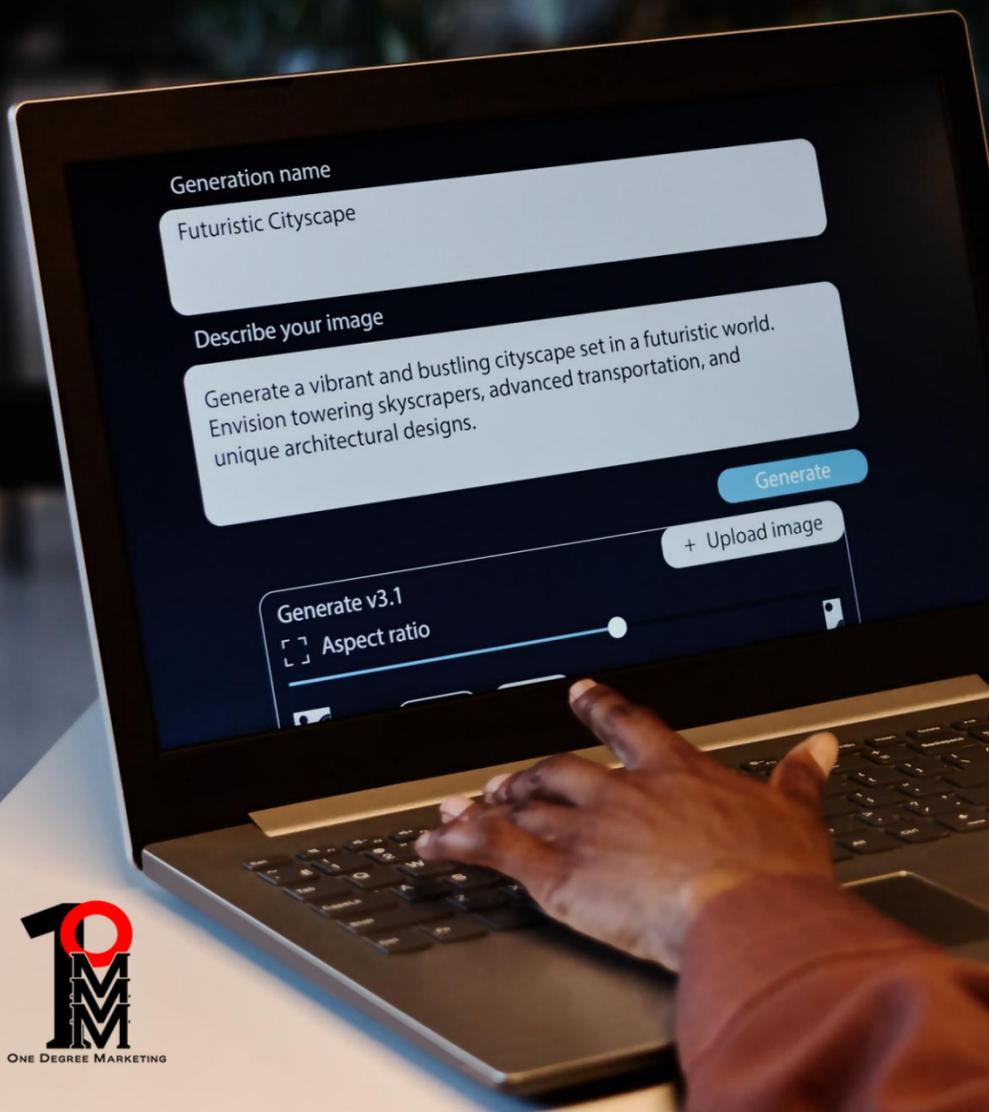

Personalize the first line or subject line

Use merge fields

Test + refine sequences over time

# 06 AUTOMATING FOLLOW-UP WITHOUT LOSING THE HUMAN TOUCH

# PERSONALIZED OUTREACH AT SCALE

## Personalization Without Burnout

### HOW AI HELPS:

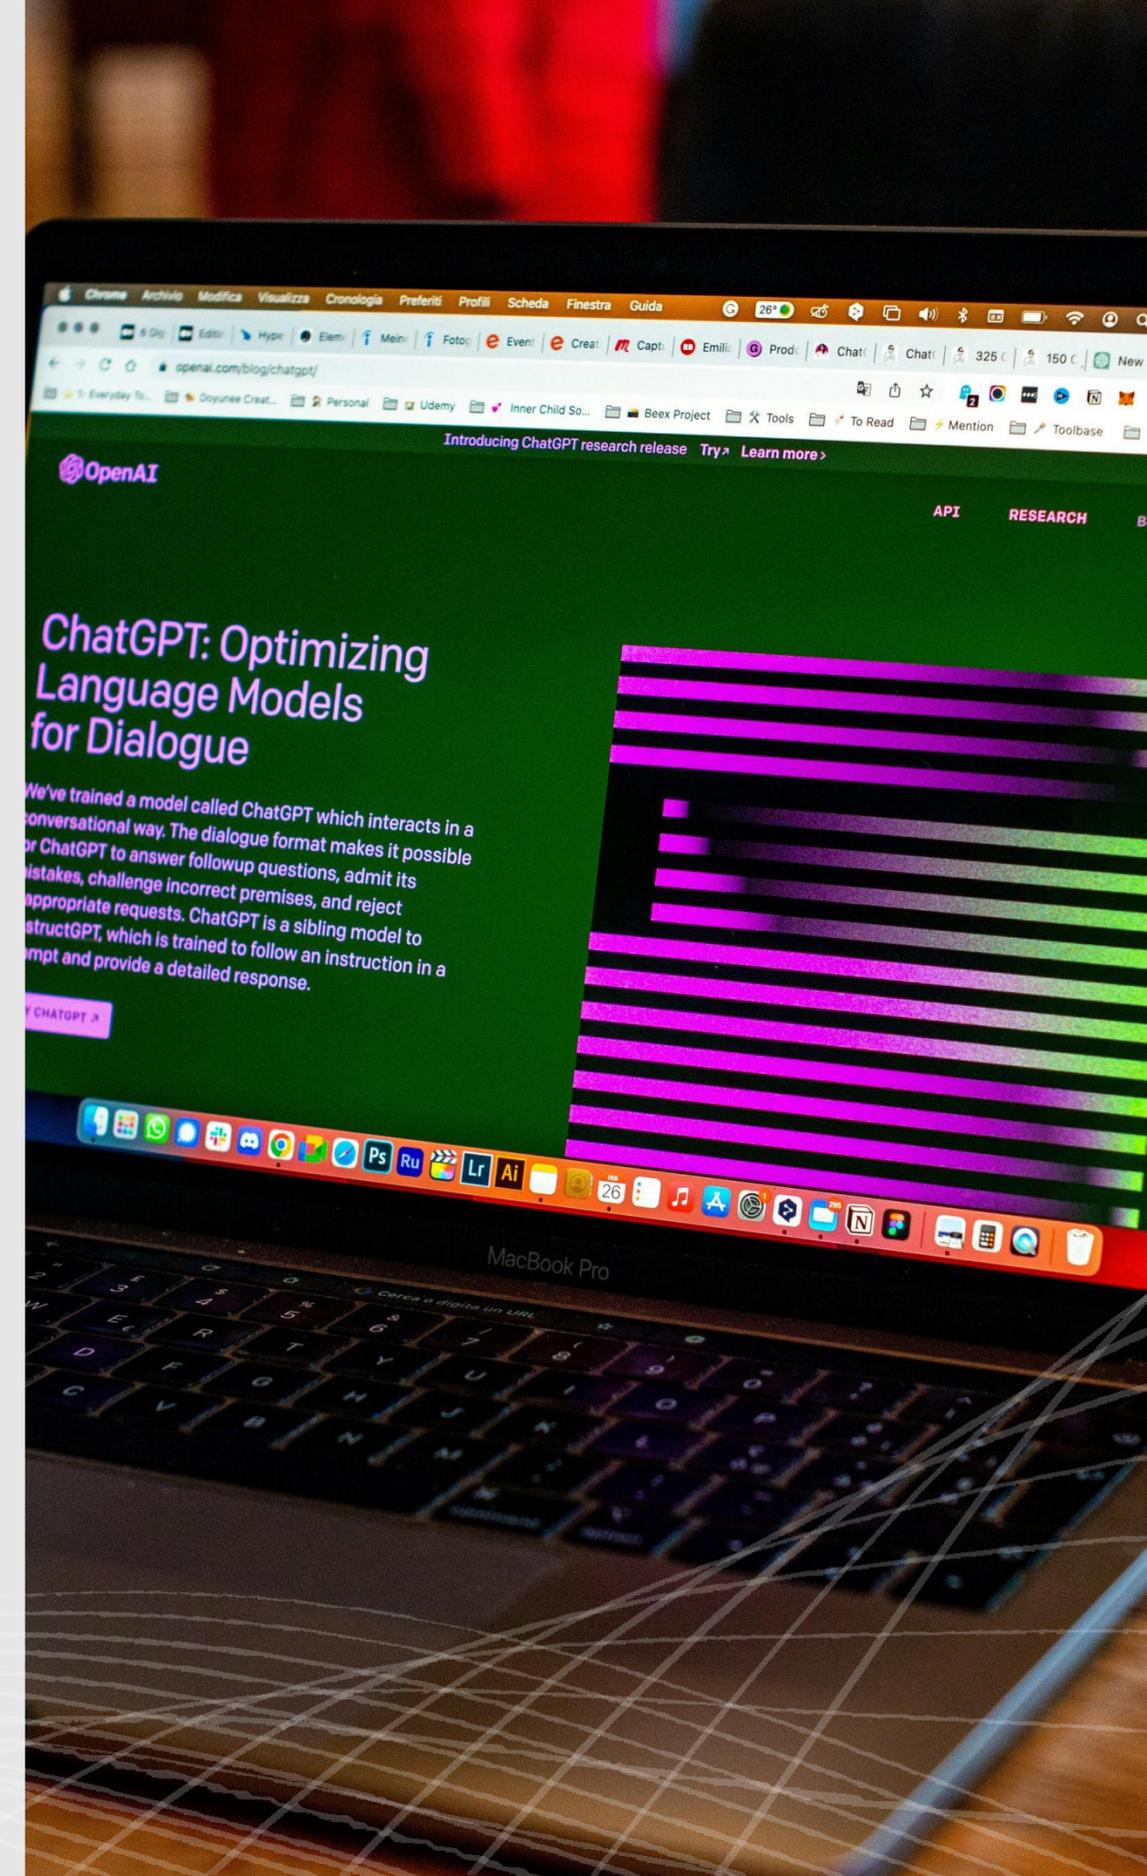

AI can customize messages using audience data (names, behavior, purchase history)

Adds a personal feel to batch communications

Helps you test subject lines, CTAs, and tone

# 07

# PERSONALIZED OUTREACH AT SCALE

Make It Feel 1-on-1 Even at Scale

## BEST PRACTICES:

Use variables: name, company, last action, etc.

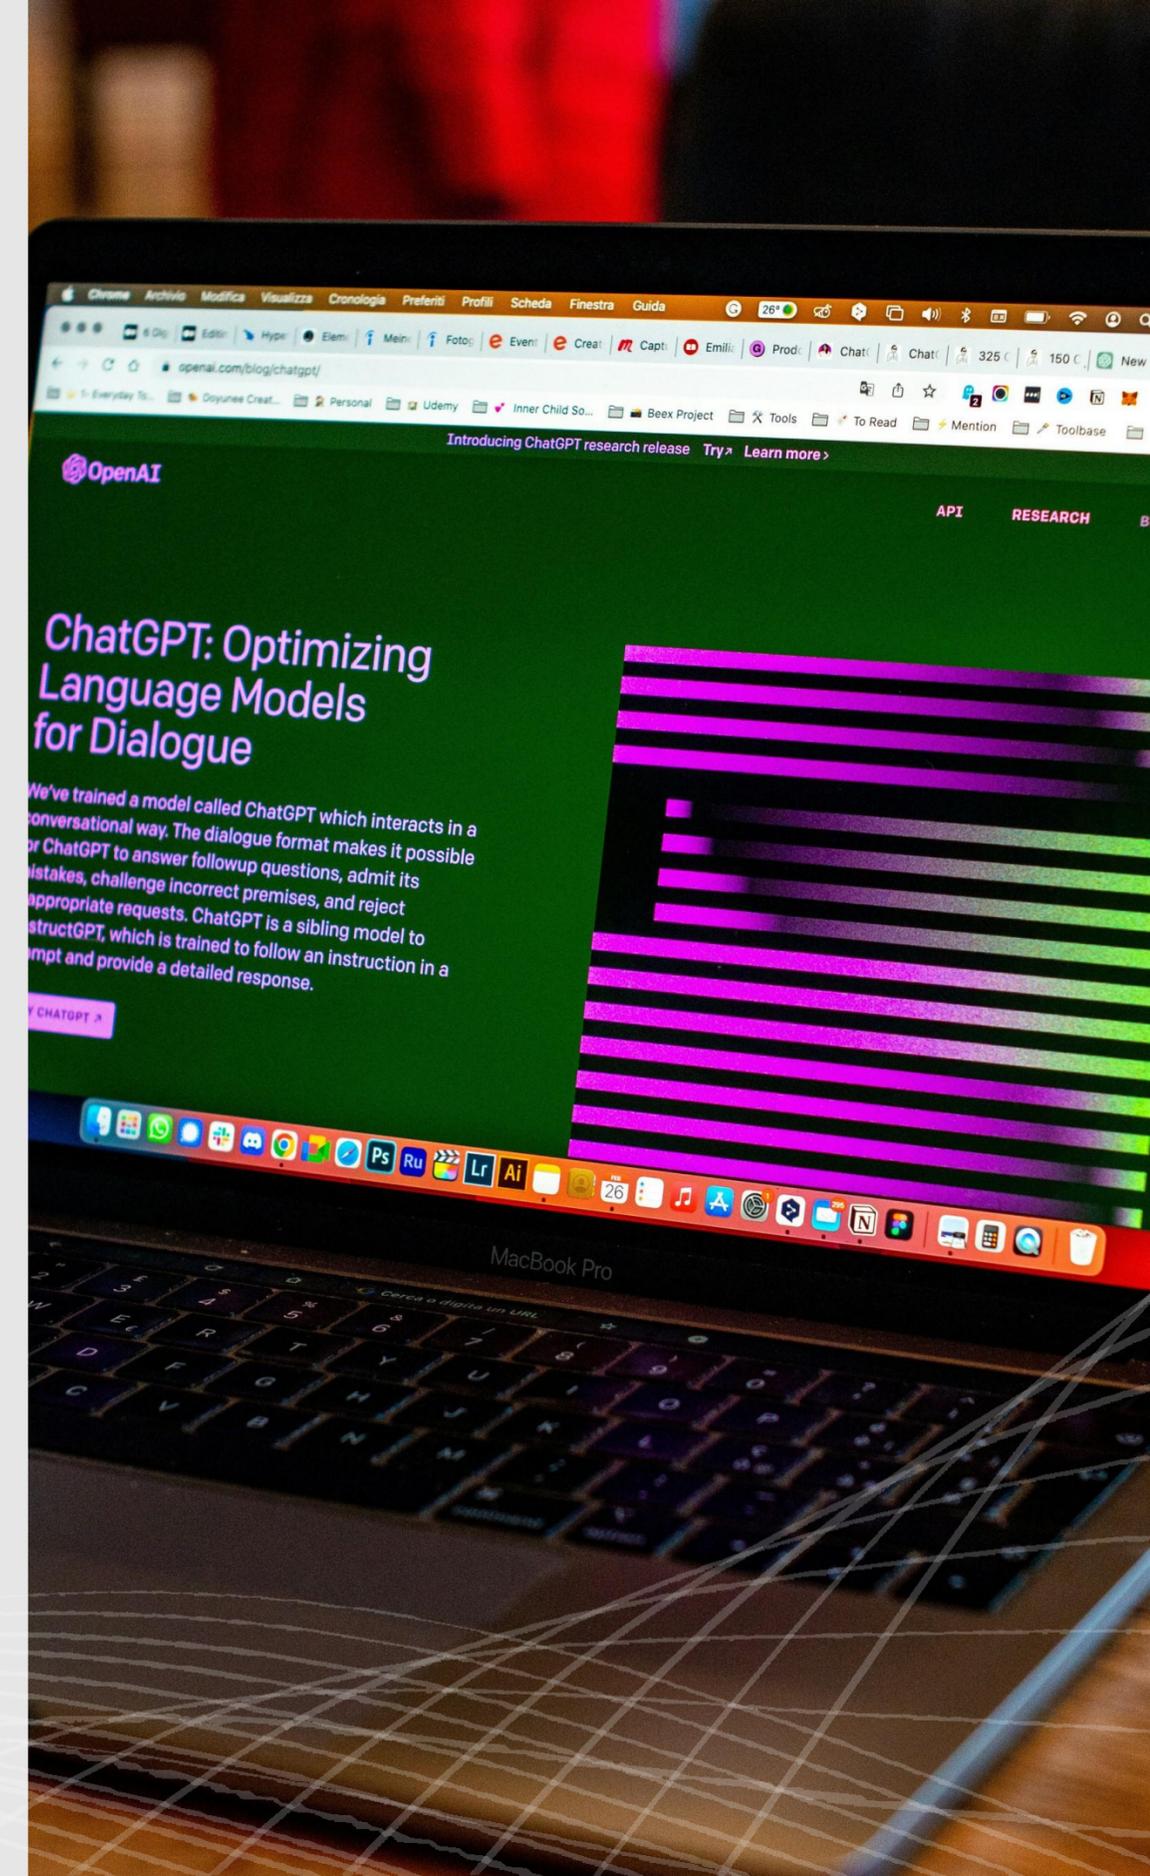

Start with a genuine opener (AI can help generate based on profile)

Don't overdo it—authenticity over fluff

Personalize *who* you send to and *what* you say
