

Finance

Worldwide Finance's vision is to partner with the business to drive revenue growth over the long-term and optimize bottom line results in a well controlled environment.

We can bring this vision to action by executing on our four-pillar mission statement:

- Drive strong financial stewardship throughout our business and ensure the integrity of financial results through financial discipline and rigor
- Demonstrate thought leadership and partner with business to provide strategic financial advice on business priorities to enable financially sound and effective decision making
- Actively maintain a strong internal control environment through operational excellence
- Cultivate a team environment which is inclusive, promotes integrity and accountability, and focuses on career development
